Prairie Hills Transit is going to be planting trees and shrubs around their new regional facility. This is a chance for those in the community to establish living tributes or memorials for those they would like to honor. If you would like to recognize someone, establish a memorial, or show the support of your business for PHT, donate a tree or shrub to be planted on our property. This lasting donation will be around for years to come. A marker will be placed along with every donated plant. The markers can be personalized with a message of up to 34 characters. PHT is a 501(c)(3) organization so your donations are tax deductible.
